

Job title: MSK Physiotherapist

Who are we?

Established in 2009, with various London locations and onsite corporate presence, multi-award winning Bodylogics Health and Fitness Clinic has grown to become one of the leading Health and Fitness Clinics in London, specialising in pain management through a variety of interventions including Physiotherapy, Sports Massage Therapy and much more.

The **multi-award winning** Bodylogics Health and Fitness Clinic was set up with the vision of providing exceptionally high levels of clinical treatment with outstanding expert care and are proud of our 100% 5* google reviews left by our patients. We take great pride in what we do and are continuously updating our best practices to ensure we deliver the highest service possible.

The role

Like all of our team at Bodylogics, our Physiotherapists are expected to provide unprecedented care and treatments, that go above and beyond that of any other clinics. Where patients WANT to return to us, and not just to feel that they have to. We want our Physiotherapists to help people and ensure everyone has access to the highest possible service/treatment to help them achieve whatever their goals are.

We aspire to revolutionise the healthcare landscape by enlisting your support in empowering patients with the knowledge and tools they require to proactively contribute to their rehabilitation journey. Our mission is to continue offering gold standard care, ensuring that every individual receives evidence-based treatments right from the outset across all conditions.

Communication and developing caring relationships is key for this role. Not only internally but ensuring the highest standards of service are delivered to patients in a way that shows you have their wellbeing as the main priority, and they can confidently make the right decision about the plan of care/treatment that you are recommending. The result is to ensure that patients achieve their clinic and health / lifestyle outcomes in a time frame that you have set.

Responsibilities include:

- Monitoring the progress of patients and adjusting or changing treatments as needed
- Provide excellent customer service and care that will ensure that patients remain excited to return to the clinic for treatment and remain committed to the treatment plans that you recommend
- Ensure that general patient management is being adhered to in an efficient and productive manner including clinical notes are updated in a timely manner and accurate, setting expectations for letters and exercise plans
- Making good use of company integrations (such as physiapp) for the progress and well-being of patients
- Contribute to the accurate diagnosis and prognosis of injured patients and provide written, organised patient treatment and rehabilitation programmes.
- Liaising with other referring parties and healthcare professionals, such as Occupational Therapists and General Practitioners and referring patients as needed to ensure consistent care
- Supervising and guiding student and junior Physiotherapists (when required)

- To comply with all Bodylogics policies, procedures, guidelines, and regulations, ensuring that we consistently deliver to the highest expectations we have set ourselves
- To continually develop as a Physiotherapist and evidence continued professional development (CPD)
- Proactively attract returning and new client business to the clinic site, which should include leading corporate workshops, as prepared by yourself and the partnerships manager, to existing, new and prospective patients.
- Support the clinic's Administration & Operations team in a timely and productive manner with any technical patient queries and service improvement developments
- Maintain the highest hygiene and cleanliness standards before, during and after each patient, as set out in the Bodylogics policies
- Proactively and effectively communicate with the team and managers ensuring that you are working in an organised manner
- Participate in and contribute to team meetings weekly, 1-2-1 meetings every and team outings

Qualifications & experience required:

- Full registration with the Health and Care Professions Council and Chartered Society of Physiotherapy
- Full insurances
- Experience of contributing to internal CPD sessions to be shared within the team
- ITEC level 3 sports massage and other qualifications beneficial
- Able to work autonomously, whilst adhering to Bodylogics exceptional high standard and processes
- Excellent organisational and time management skills
- Excellent verbal communication and interpersonal skills
- Excellent written English skills
- Working knowledge Microsoft packages

Why Bodylogics?

Quality and uniqueness lies at the core of the Bodylogics brand. We are dedicated to ensuring the happiness and well-being of each member of our team. Our company's guiding principles revolve around family ethos. When you join us, you become more than just an employee; you become an integral part of our extended family.

Working with us not only allows you to share in our vision and values but also provides an opportunity for personal growth. Our core values of respect, honesty, and care underpin every aspect of our operations, and we aim to extend these values to create a distinct and nurturing work environment for you.

We are extremely passionate in helping people and ensuring everyone has access to the highest possible service/treatment to help them achieve whatever their goals are. For this reason, we have the highest expectations of you and expect you to hold the highest expectations of us too. We take great pride in what we do here and we know that if we all work together, we will be hugely successful in our aims and vision.

If you are passionate and enthusiastic about your career, then we can provide the perfect pathway to help you achieve your goals. Together we will create a huge impact in the health, wellness and fitness industry which will lead to extensive progression opportunities within Bodylogics.
