

Our Promise to You

1. *A clear diagnosis*
2. *An understanding of how it happened*
3. *Expected time frame for recovery*
4. *A clear treatment plan set*

When I started Bodylogics, I had a very clear vision. I didn't just want to build another clinic; I wanted to create a place that redefined what it means to receive healthcare.

In our world, we see people through four lenses: *Shoppers, Patients, Supporters, and Fans.*

Most healthcare is transactional - you have a problem, you see a Patient, and you provide a treatment. But at Bodylogics, our core value is different. Our mission is to move beyond the transactional and transform our Patients into Fans.

A "Fan" is someone who doesn't just feel better, but someone who shouts from the rooftops about the care they received. Someone who feels so supported and understood that they want everyone they know to experience that same level of excellence.

This is why I am putting my reputation on the line.

I am personally committed to Bodylogics being the leading healthcare clinic in North London, and that starts with a promise of 100% satisfaction. Finding the right "fit" between you and your practitioner is the foundation of your recovery.

If, for any reason, you don't feel that your first appointment was the right match, or if you aren't completely satisfied with the start of your journey, I invite you to see another member of our specialist team for a second consultation, entirely free of charge.

We don't want you to just be "satisfied." We want you to be a Fan. We want to earn your trust, achieve your goals, and give you a reason to shout about your success from the rooftops.

Thank you for being part of our story. I look forward to hearing yours.

Kindest regards,

Jason

Clinical Owner, Bodylogics
